To whom it may concern,

RE: Katherine O'Regan

I would like to provide a reference for Katherine O'Regan, who has nominated for pre-selection for the Federal seat of Wentworth. I am a long term resident of Woollahra, and an active member of the Liberal Party.

I would fully support Katherine as our local candidate. She provides a strong voice for the local community and knows how to deliver results. I had several dealings with Katherine during her time on Woollahra Council and she was always willing to provide a sensible approach and took time to listen.

Katherine is an active, dedicated member of the Liberal Party who genuinely cares about its beliefs and cares about its future. She would make a great leader who understands our community and has a solid, stable and sensible approach to policy matters. Her consistency and proven performance would be invaluable in this role and would be an asset to the Liberal Party. It would also be very pleasing to see increased involvement of females within the party at this level and that, too, is a step in the right direction.

Yours sincerely,
